

Multi Irrigation materials

When it comes to irrigation equipment, a full program of products is offered by Benfried, including: pre mounted irrigation hoses with capillaries, drippers and various types of spikes.

Complete tailor made irrigation systems

PVC material, incl. all possible adapters, socks and bows can be found in our shop and are used for traditional water spraying.

Also straight forward irrigation lines, such as T-tape is part of our delivery program.

Water storage tanks

Whether it concerns a small storage for return water, large water tanks or huge water basins, it is all available with Benfried.

We supply Genap quality liner and the best possible steel constructions to meet your expectations.

Now available with new SiloFloat® anti algae cover.
